***** NEWS RELEASE *****

February 10, 2011

The second group of McBee Genetic Advantage Program calves were grouped and marketed through the 17th Annual McBee Fall Calf Roundup on January 28 and 29, 2011. The MGAP calves were all Age and Source Verified and Verified McBee Braunvieh or Braunvieh/Angus Hybrid genetics. The calves were also weaned and preconditioned a minimum of 45 days with two rounds of shots and bunk broke for their new buyers.

The 419 calves were produced by 15 different customers and sired by 28 different McBee sires. The calves were grouped in like sizes and marketed in truck load lots with no sort for color.

472 lb. steers @ \$1.49
464 lb. heifers @ \$1.28
632 lb. steers @ \$1.31
605 lb. heifers @ \$1.24
